

Glam

Preciousness and elegance are the hallmarks of this collection that reworks with a modern vein the sumptuousness of the Baroque era. Sparkling relief motifs, made of glass beads alternated with velvet designs printed on silk, contribute to create luxurious and prestige spaces. The exquisite designs, combined with vivid colors and strong contrasts, bestow on the collection a marked glamour character. Richness, opulence and fashion merge in each other, to give birth to a new concept of luxury.

TECHNICAL FEATURES

There are two different products in Glam collection.

Design Beads (GM11 to GM38): using the most popular technique invented in 2008 with Axiom collection, the modern sophisticated designs, made of glass beads, are glued on a non woven background previously printed with subtle strips.

The employment of bright metal colors enhances even more this rich manufacture, lending an indisputable glam effect.

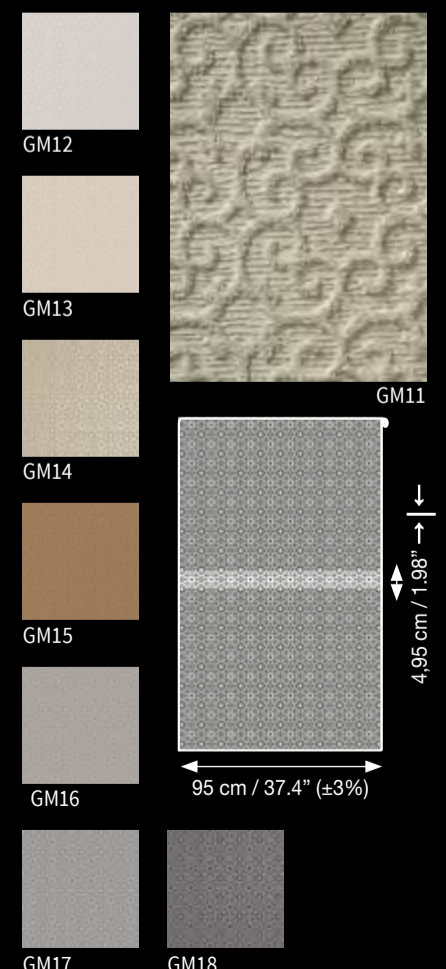

Silk meet Velvet (GM41 to GM68): using a high standard velvet, the beautiful classical designs are printed on a shiny silky textile that, reflecting perfectly the light, makes as if the designs come out from the wall, giving an incredible tridimensional effect.

ABOUT THE COMPANY

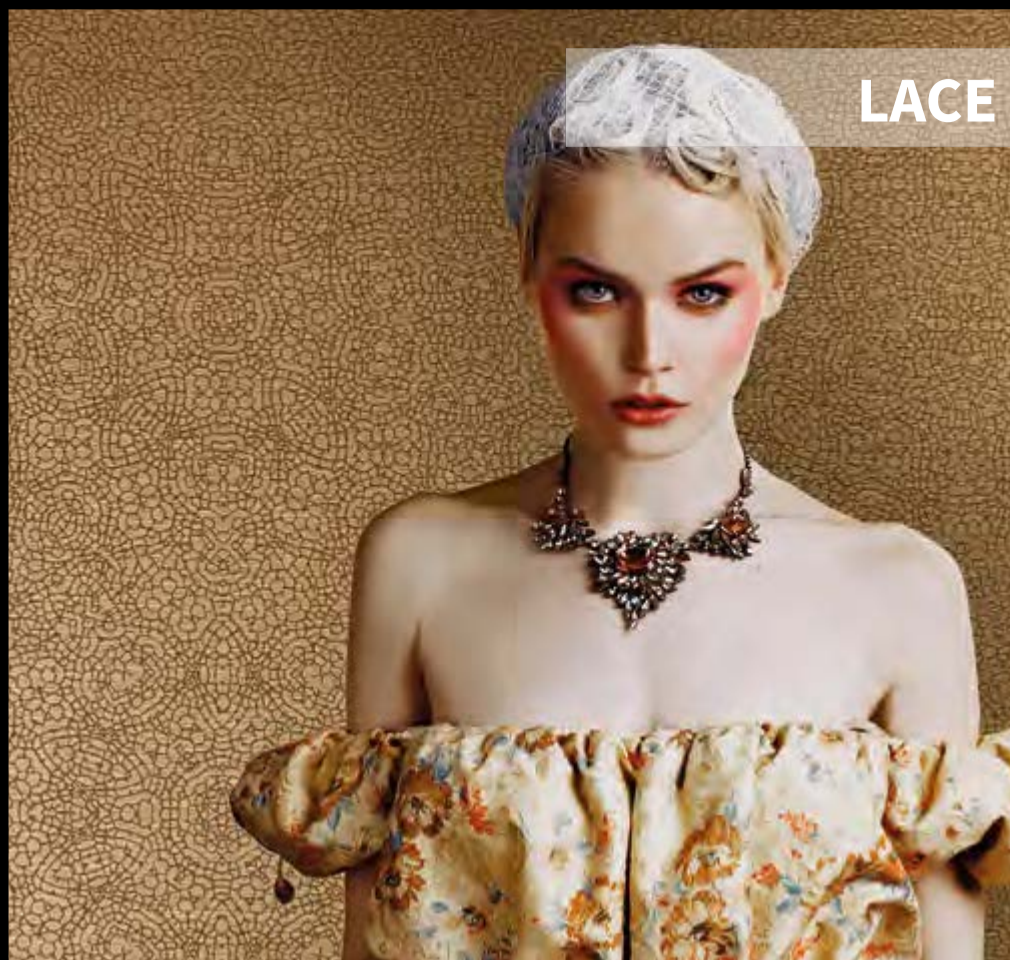

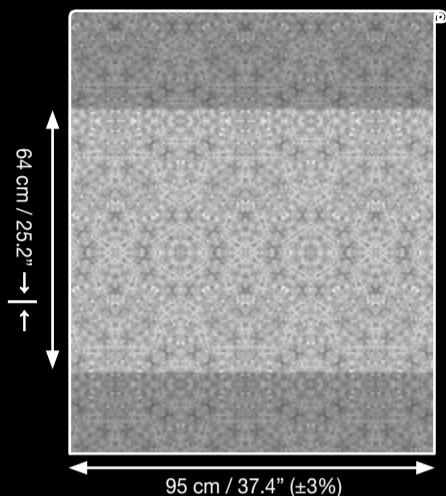

In few years Texam Home, thanks to its creative philosophy based on "Research never ends", has become a leading brand on the high-end of wallcovering's market. Infact, our brand embodies a resume of innovative high technology, exclusive materials and a unique style, that stands out from the masses. This harmonic mix permits, every year, to create remarkable and cutting-edge products, which express themselves in timeless astonishing collections. Another essential aspect of Texam Home's creations is the feeling that the material gives; it is perceived as something completely natural and organic, avoiding any industrial effect. All the wallpaper's surfaces are designed to obtain a three dimensional effect, to reshape rooms and locations, in order to nullify the optical barrier of the wall, giving vitality to the whole space thanks to a perception of infinity. The technical skills, unified with the brilliant innovations, brought by a qualified creative team, ensure to the customers top level products, which are always precursors of fashion in the wallcovering's world.
